

Extreme temperatures anti-fraud sticker seal customizable

Total: €479.00

Unit: the roll of 1000

- Antitheft "OPENED VOID" label
- Highly secure and **tamper-resistant**
- Resistant to extreme temperatures **-40°C +80°C**.
- Can be directly stuck on hot/cold surfaces.
- **Unquestionably** intrusion proof.
- Relevant **elements** of deterrence.
- Customizable according to your desires and needs

This anti-fraud adhesive seal is available in the form of sealing labels used for closing any assets, in order to protect them from intrusion and to ensure their authenticity, confidentiality and integrity. Tampering of these labels instantly indicates the «OPENED VOID» message, thus providing unquestionable evidence. Using this product also has the added benefit of deterring any malicious behavior.

An anti-fraud sticker seal resistant to extreme temperatures

This extreme temperatures anti-fraud seal has an added advantage compared to other ranges, since it effectively resists **extreme temperatures between -40°C and + 80°C** both

at the time of application and during removal.

The seal label can be applied on the surface at temperatures

The adhesive is designed to be stuck instantly and effectively to the surface even if it is already subject to unusual temperatures. Suggested for materials such as **glass and metal** (doors of cars, trains, aircraft), it can also be used to seal any **surface with high temperatures**. Resistance to these high temperatures makes it a highly secure seal that prevents any attempts to use cooling or heating processes to remove it.

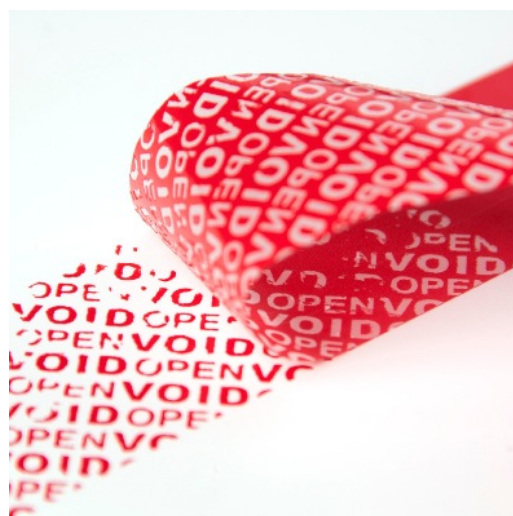

The below video demonstrates and proves its efficiency.

1. SELECT YOUR TYPE OF TRANSFER/ADHESIVE

The anti-fraud seal with resistance to extreme temperatures comes in two types of adhesives / transfer and is suitable for any sector and any type of use.

Zero transfer

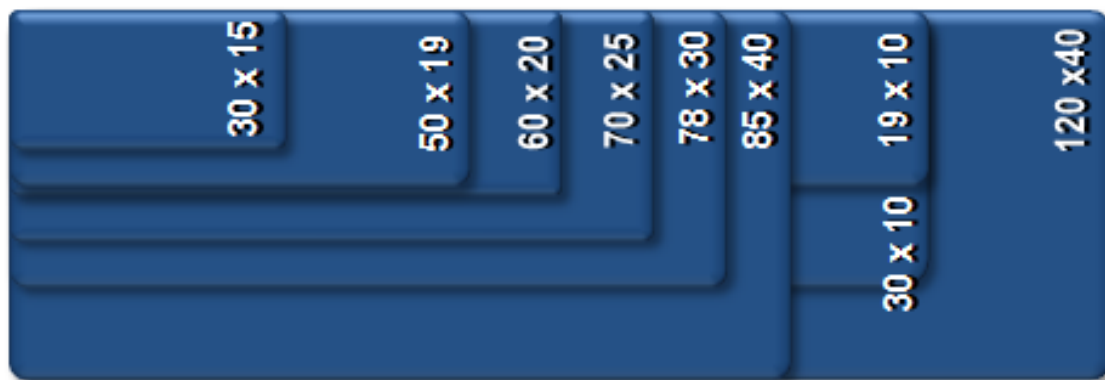

Partial transfer

To help you better distinguish the various types of **VOID transfer** and select the one that best suits your surface, you will find more detailed visuals and information in the section [SBE recommends](#).

2. SELECT YOUR LABEL SIZE

For large quantities, the label size can be defined according to your selection, just like the packaging of the rolls. (Production costs of 250 € HT. Contact us for a quote).

The initial offer provides **9 standard sizes in mm**:

3. CHOOSE YOUR COLOR

You can select the color of your seal labels from a range of 5 shades, at your convenience.

The colors below vary slightly from the originals that are designed in a brighter material (glossy effect). You can always order samples.

Colors	Name	Ref	Zero Transfer	Total Transfer
	Red	RG	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	Black	NO	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	Orange	OR	<input type="checkbox"/>	<input checked="" type="checkbox"/>
	Blue	BE	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	Transparent	TR	<input checked="" type="checkbox"/>	<input type="checkbox"/>

From orders for **5000 labels and more** (i.e. 5 rolls), it is possible to make savings and customize your seal **printed in black or white**.

4. SELECT YOUR CUSTOMIZED PRINT

Here, you can insert any type of visual:

- **Fixed:** logos, texts or slogans
- **Variable:** barcodes, numbering, QR-codes, etc...

This customization provides a significantly higher level of security and **enhances the brand image of your company.**

You can thus add a personal touch to your seals

Printed in black or white, the printing is carried out using the thermal transfer method, a technique **that imparts a perfect finish to product.**

The processing fees are charged only for the first production. (The announced delivery time is effective after approval through a press proof)
