

# Anti-theft system for PCs Office: the complete eco kit

Total: €44.00

Unit: the kit

- Universal, economical and easy to install
- 100kg to remove an ECO anchor
- 100% effective against theft and data loss
- Prevents unwanted shifting of the CPU and peripherals
- Cable resistant to a pull of more than 200kg
- Computer locking systems

Computer locking: this economical antitheft anchoring system for desktop computers, video equipment, laboratory equipment, etc. shown here as our basic entry-level model actually offers quality that is comparable or even superior to a number of similar products available in the market.

**Computer locking- this economical antitheft steel anchoring system consists of :**

- A **computer locking mechanism**: Metallic anchor plates (not plastic) joined together with ultra-strong cyanoacrylate adhesives (and non-self-adhesives) that can withstand a pull of more than 1 ton,
- an **aircraft steel** computer security cable resistant to a pull of more than 200kg,
- A German-made **powerful padlock** with the option of **identical keys** for easy management.

This computer locking system with computer security cable is available either in the form of a **ready to use individual kit** (specially recommended if the user performs the

installation), **or is sold per unit**, that allows you to accurately adjust the anchoring system in a way that best suits your needs.

**New design !** The Eco computer security steel cable has a new design that enables it to withstand a pull of more than 200kg. This anti-theft cable ensures greater security of your laptops and other equipment. The test was conducted with the help of a machine in a controlled manner.

**Each kit is individually packaged and consists of:**

- 1 transparent sheathed aeronautical steel cable 1.80 m long. (cable diameter 2.5 mm, external 4.5 mm)
- 3 circular metal plates (diameter 48 mm)
- 1 alcohol degreaser pad + 1 square of Scotchbrite
- 1 Burg Wachter 20 mm padlock (German made)
- 1 tube of cyanoacrylate glue
- 1 instruction manual

***Be careful not to use degreasing agent bags for these products requiring gluing***

***with Cyanoacrylate glue.***
