

Blank Security Label Partial transfer 100x19mm - Red

Total: €107.50

Unit: the roll of 1000

- Protect your property from intrusion
- Tag "**opened void**" anti-tampering/breaking
- Proof of **undisputed intrusion**.
- Element of **dissuasion** relevant.
- Secures the **transport of goods**.
- Preserves the **confidentiality of documents**.

These partial transfer anti-fraud adhesive seals come in the form of labels allowing you to seal any medium to ensure the security, confidentiality or hygiene of an item. These labels denounce any attempt at snatching, fraud or infringement, they are an unquestionable deterrent.

The "Partial Transfer" adhesive seal

This **partial transfer adhesive seal** is highly recommended for **plastic and metal** packaging. Particularly popular in the banking and casino sector, it is a safe and reliable seal for your cash and funds transfers. Designed for **one-time use** it is also widely used for cosmetics and pharmaceuticals.

Thanks to a high-performance acrylic adhesive system with partial transfer, the label will be able to provide a **double clear** and indisputable proof in the event of a break-in.

Partial transfer offers a breakable adhesive that will leave **amoderate residue** on the product or sealed package as well as a portion of the label . The **irreversible message "OPENED VOID"** thus appears on both surfaces, making the malicious act even more obvious.
