PointSafe P1S

- German made safe
- Quality / price ratio
- Meets all European standards

This German made high quality safe tested in the BURG-WÄTCHER test laboratory has the best price-quality ratio and is in compliance with all the European standards in force. It is possible to have your safe assembled, delivered and installed directly at its place of use.

Its size is ideal for installation in cabinets and closets, and the safe is designed for fixing to the wall or floor with two pegs provided. The P3 and P4 sizes have an **ideal structure to store and protect binders and laptops with their fixed shelf**. Note that it has no insurable value.

The safe is available in 10 sizes, 3 with a single key lock, 4 with the electronic lock and 4 with a biometric lock.

The POINTSAFE eco safe with security lock with double bit key allows 1,000,00 different locking operations.

Its thick and **robust steel** design and its door with double wall are real indicators of security for the user.

The safe is provided with 2 keys

The safe with **electronic lock** is self-programmable with the help of a general code and a user code modifiable at any time.

It is very convenient to use thanks to locking/unlocking mechanism which is operated by motorized bolts. Delivered with batteries (4 x 1.5V LR 6 AA type), no electrical connection is necessary, a backup key is provided.

Safe with **biometric lock** is self-programmable.

It has a master code and a user code as well as **5 locations for fingerprints that are interchangeable at any time**. The POINTSAFE safe with biometric lock has a practical benefit with its automatic locking/unlocking mechanism operated by motorized bolts for optimum comfort. The safe is delivered with 4 Mignon LR 6 AA type batteries. No electrical connection is necessary and the cabinet has an emergency lock.
