

# Iron-on garment label

Total: €558.00

Unit: The label package \*

- Colorful adhesive labels for textiles
- Resistant to washings
- Thermocollant label
- High temperature resistance

Color heat-seal textile labels are your all-in-one solution for printing and personalizing textile labels directly in your facility. All heat-seal labels are pre-cut and offer the ability to precisely customize relevant data such as fabric type, barcodes, cleaning instructions, or any other necessary information for your product.

## Usage and Operation

Moreover, the color labels are **easy** and **quick to apply thanks to their heat-seal side**. You just need to place them on the fabric and press them with a hot iron for a few seconds for perfect adherence. And that's it! Thus, **you can create personalized labels** in no time, without needing to resort to an external printing service.

**Our range of printing options will vary**, from **no printing** at all to **single color**, and **four-color process printing**. Four-color process involves overlaying four colors to achieve the correct final rendering.

## Benefits of the Roll of Color Heat-Seal Labels:

The rolls of color heat-seal textile labels allow you to print the labels yourself and choose from a selection of bright colors. These labels **are washable and dry-clean resistant**, offering **maximum durability**. Black thermal transfer printing can be achieved using a suitable ink ribbon. Moreover, a heat press is used to heat the label to over **200°C** using a

**textile heat press.** You can apply these labels to all textiles (clothing, mattresses, carpets, etc.) to identify or communicate the characteristics of textile products in a colorful and attractive way.

### Characteristics of the Roll of Color Textile Labels:

The **heat-seal labels** are **pre-cut** for quick and efficient use during manufacturing.

Each roll contains 50 meters of color heat-seal labels.

Various dimensions available to suit your specific needs.

Specially designed for **marking** textiles using a **heat press** at about **200°C**.

Features **detection notches**.

Resistant to washing, it also offers the possibility of **pre-printing** during manufacturing.

### Dimensions of Color Heat-Seal Labels

Size	Inner Diameter	Mandrel	Outer Coil Diameter	Number of Labels
40 x 14 mm	25 mm		125 mm	3125 labels
82 x 25 mm	25 mm		100 mm	1800 labels

Printing requires a specific **thermal transfer printer** and a **resin ink ribbon** for optimal results.

Explore our selection of textile label printers and thermal ink ribbon rolls on our website, available in a variety of vibrant colors, including **pastel green, sky blue, pink, mauve, yellow, orange, red, and fuchsia**, to meet all your customization needs.

Color heat-seal labels are an ideal choice for businesses looking to add a personalized and professional touch to their textile products. Their ease of application, durability, and wash resistance make them a wise investment for any quality-conscious business.
