

Marguerite SBE anti-theft screws: the screw

Total: €384.50

Unit: The set of 75 screws

- Against the theft of memories, processors, cards and hard disks
- The economical solution against opening of the PC casing
- Can be easily installed

This system has been specially designed **to ensure the highest level of protection against theft, handling, vandalism and intrusion of your property.** The screws are made of high quality steel specially hardened and galvanized and are corrosion resistant. **No possibility of handling** by means of chisels, saws or nail files or even drills thanks to durability of the head; **only the special key** (Ref SEP-MARG-CL or BI) will allow unscrewing. Is suitable for the majority of PC casings (dimension: Length under head 9 mm / Diameter 3.5 mm). On request, other dimension and/or fingerprint coded by user with certificate. Contact us.
