Wired Barcode Scanner L51X 2D Imager

Total: €291.00
Unit: the reader

- Scanning speed
- Image capture
- Datamatrix QR Code Reading

- Professional Ergonomics

The Wired 2D Imager Barcode Scanner is ideal for identifying goods and people at an excellent value, perfect for cash registers. Equipped with Imager technology, this scanner can identify all types of barcodes, including 1D, 2D, EAN13, UPC, and QR codes, making it versatile for various sectors. Its ergonomic pistol-shaped design makes it easy to handle, which is highly appreciated in industrial environments.

This wired 2D imager barcode scanner will read all your barcodes in a flash

This **wired 2D barcode scanner** captures all your barcodes quickly. Thanks to its **Imager technology**, it authenticates all regulated barcode types **1D and 2D**. This scanner can **read quickly** and accurately all your labels. This barcode scanner connects to a computer via a **USB cable** and automatically imports data with each scan. The scanner has a **depth of field up to 140 mm** and a **reading angle of 40.6° horizontal and 26.4° vertical**, optimizing barcode capture regardless of their location or orientation—ideal in crowded environments such as points of sale or cash registers. The wired barcode scanner can read barcodes at a **speed of 60 flashes per second.**

Durability and connectivity of the wired barcode scanner

This **wired USB barcode scanner** connects to a **PC** or **Mac via USB, RS232**, or **Wedge** for quick scans at medium range, ideal for department stores, events, or public institutions. It **resists drops of 1.5 m** on concrete and dusty and humid environments (**IP42 standard**). Performance remains consistent even in extreme temperatures from **-20°C to 50°C.**

How to scan a code with a computer?

To scan a barcode with a computer, **use a barcode reader/scanner connected via USB**. This method is perfect for fixed workstations where a wired connection provides stability. Once connected, the scanner operates in hands-free mode, allowing for quick and efficient scanning of codes without manual handling, ideal for transactions or inventory management.

Advanced Labeling Solutions for Wired Barcode Scanners

To maximize the efficiency of your laser barcode scanner, ideal for retail, integrate **label creation solutions** into your management system.

Use specialized software to **customize blank labels** available from SBE Direct for a **quick and convenient solution.**

These labels facilitate product marking and identification, improving **inventory management** and **point-of-sale efficiency**.

Caractéristiques du produit :

Unit	the reader
Conditioning	individually
Guarantee	1 year
Weight	156g
Format	75.4x169x121.2mm
Speed	60 flashes / sec
Temperature resistance	-20 ° C to 50 ° C

Tarifs dégressifs *Ref. ACC-LCB-L50X*

Quantités	Prix € HT Decreasing
1	291 €
